

MATH SUPPLY LISTS
2010/11

The following items are required for ALL math courses at College Pathways:

- A 3-ring binder to keep your notes, homework, quizzes and tests
- A box of #2 pencils with good erasers
- A ruler or straightedge
- Graphing calculator, preferably a TI-84 Silver, but any TI-83 or TI-84 will work.
 - Purchase of the TI-Inspire is discouraged: even though it is an excellent calculator and approved for us at College Pathways, the TI-Inspire is not approved list for CSAP, ACT and SAT tests. Any student taking those tests may not use the TI-Inspire during the test. The TI-83 and TI-84, however, are on the approved list for CSAP, ACT and SAT.
- Two packages of college rule notepaper
- One package of graphing paper
- One family size box of tissues (Kleenex, Puff's, or similar)

In addition, for Geometry you will need:

- A metal compass with center wheel (please no plastic compasses; they break too easily)
